Career Objective

Aspiring to be part of an organization that values innovation and excellence, providing opportunities for personal and professional advancement while contributing to its long-term goals.

Educational Qualifications

Degree and Year	Institute Name	Board / University	% / CGPA
B. Tech (CSE) 2023-27	Gandhi Institute of Engineering and Technology University, Gunupur	GIET UNIVERSITY	8.77
+2 Science in 2023	Maharshi Gurukul, Gunupur	CHSE	70.50
10 th in 2021	Sarvani Vidyalaya, Srikakulam	Andhra Pradesh State Board	96.8

Training / Certification

- **ServiceNow Certified System Administrator (CSA):**
Successfully cleared the CSA certification exam, demonstrating proficiency in ServiceNow platform administration, workflows, user management, and system configuration.
- **Python with SQL – Internship Program:**
Learned how to integrate Python with SQL for efficient data handling, including CRUD operations and database automation.
- **Data Analysis Internship:**
Gained hands-on experience using Python libraries (Pandas, Matplotlib, Seaborn) for data cleaning, processing, and visualization.
- **Python – AWS Cloud Internship:**
Completed a 45-day hands-on internship focused on AWS Cloud Services, including Lambda, DynamoDB, and S3, with exposure to cloud integration and full-stack development.
- **Workshop on Wireless Bot Design – SARS Club, GIETU:**
Participated in and helped organize a workshop training 200+ students on designing Bluetooth-controlled robots.

Achievements and Extracurricular activities

- Cleared the **ServiceNow CSA** Certification.
- Ranked among the **Top 50 students** in college based on CGPA.
- Participated in **Hackathons** and **Robotics competitions**, showcasing teamwork and problem-solving abilities.
- Successfully integrated **Agentic AI into a Home Inventory Application** during the **Python–AWS Cloud Internship Hackathon (Hebbale Academy)** and achieved a **Top 10 position** in the final round.

- Served as a **Core Member of the SARS (Student's Association for Robotics and Automation)** club, organizing technical workshops and training sessions for juniors.
- Contributed to the successful **planning and coordination of a farewell event** as an **Office Bearer**, ensuring smooth logistics and team collaboration.
- Engaged in **coding challenges** on platforms like LeetCode and HackerRank to strengthen logical and analytical thinking.
- Passionate about **photography and editing**, actively participating in creative projects and visual design activities.

Technical Skills

- **Languages:** Java, Python, C
- **Web Development:** HTML, CSS, JS.
- **Tools:** GitHub, VS Code.
- **Data Science:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn(Basics)
- **Core Concepts:** DSA, OOP, DBMS, Computer Networks, OS

Soft Skills

- Communication
- Leadership
- Time Management
- Teamwork
- Problem Solving

Position of Responsibility

Here are the Following Positions of Responsibilities I've been a part of

Name	Description
Office Bearer Member – GIETU <i>June 2024 – Present</i>	Contributed to the successful planning and organization of a farewell event for seniors, handling logistics, coordination, and event management. Strengthened collaboration and communication among club members to ensure smooth execution. Developed Skills – Leadership, Teamwork, Event Management, Communication
Core Member – SARS, GIETU <i>Sept 2023 – Present</i>	Actively involved in conducting technical workshops and training sessions for juniors on robotics and automation. Led and trained over 200+ students in the "Wireless Bot" workshop , demonstrating hands-on knowledge in Bluetooth-controlled robotics. Developed Skills – Mentoring, Public Speaking, Technical Presentation, Collaboration

Internship Programs

Successfully completed the summer internships,

Python with SQL Intern <i>At GIETU</i>	Worked on integrating Python applications with SQL databases to handle data efficiently. Implemented CRUD operations and automated data processing tasks for better backend performance. Developed Skills – Database Management, Python Programming, SQL, Automation.
--	--

Data Analyst Intern <i>At CTTC, BBSR</i>	Developed a data visualization project using Python libraries like Pandas, Matplotlib, and Seaborn to analyze and interpret datasets. Focused on identifying trends and creating clear, actionable insights through visual reports. Developed Skills – Python, Data Cleaning, Data Visualization, Analytical Thinking.
Python – AWS Cloud Intern <i>Hebbale Academy</i>	Completed a 45-day hands-on internship focused on building and deploying applications using Python and AWS Cloud Services. Gained experience with Lambda (Serverless Functions), DynamoDB, and S3 for storage and automation. Participated in a Cloud First Hackathon where our team integrated Agentic AI into a Home Inventory Application developed during the program. The project successfully reached the final round and was ranked among the Top 10 teams. Developed Skills – AWS Cloud, Backend Development, Cloud Integration, Team Collaboration.
Python Full-stack <i>EduSkills (Virtual)</i>	Completed a 10-week Python Fullstack Developer Virtual Internship supported by AICTE and EduSkills, where I gained hands-on experience in building full-stack web applications using Python technologies. Worked on backend development, application logic, and integration of web components while understanding industry-level development workflows. Strengthened knowledge of Python programming, web frameworks, and practical software development practices through guided learning and project-based tasks. Developed Skills – Python Programming, Full-Stack Development, Backend Development, Web Application Development, Problem Solving, Team Collaboration.

Project Details

Name of the Project	University Management System
Language used	ServiceNow
Description	Developed a University Management System using ServiceNow to manage and streamline operations related to hostels, departments, teachers, and students. Implemented custom tables, automated workflows, and role-based access control (RBAC) to efficiently handle university processes. The system includes a hostel complaint management module for students, enabling issue reporting and tracking while allowing administrators to assign and monitor resolution tasks. This project improves operational efficiency.

Name of the Project	Workshop Management System
Language used	MERN Stack (MongoDB, Express.js, React.js, Node.js)
Description	Designed and implemented a platform to efficiently manage college workshops by enabling student registrations, schedule tracking, and participation management. The system includes an admin dashboard for event organization and a user-friendly interface for participants. Skills Developed – Full Stack Development, Database Management, Web Application Design, Team Collaboration

Name of the Project	Home Inventory Application with Agentic AI Integration
Tech-Stack used	Python, AWS Cloud Services
Description	Developed a cloud-based home inventory application during the Python–AWS internship using services like AWS Lambda, DynamoDB, and S3. Later integrated Agentic AI during the Cloud First Hackathon, which enhanced automation and smart decision-making features in the system. The project reached the Top 10 finalists nationally. Skills Developed – Cloud Computing, AI Integration, Backend Development, Problem Solving, Teamwork

Name of the Project	Grocery Management System
Languages used	HTML, CSS, JavaScript, Python, MySQL
Description	Developed a web-based Grocery Management System to automate and streamline grocery store operations. Features include dynamic product listings, real-time inventory updates, order management, and sales analytics. The system provides a user-friendly interface, efficient transaction processing, and comprehensive reporting. Fully deployed with a responsive front end and a robust back end.

Name of the Project	Resume Builder
Language used	HTML, CSS, JavaScript.
Description	Developed a responsive web application that allows users to enter personal and professional details, which are automatically converted into a formatted resume. The system focuses on simplicity and accessibility for job seekers to easily create professional resumes. Skills Developed – Web Development, Frontend Design, JavaScript Functionality, User Interface Design

Personal Details

Date of Birth	05/07/2005
Gender	Male
Father's Name	Moningi Suri Babu
Address	Moningi Street, Near old Bus Stand, Gunupur(765022), Rayagada, Odisha.
Alternate phone number	9937056395
Language Known	English, Hindi, Odia, Telugu
Interests & Hobbies	Problem Solving, Drawing, Exploring New Things.

Place: Gunupur, Odisha

Date: 01/03/2026
